

INSTRUCTIONS FOR NEW PRACTITIONER ORIENTATION

At St. David's South Austin Medical Center

You have two options for completing orientation.

- Option 1** = On-line via HealthStream (www.healthstream.com/HCA)
Course Name: *New Practitioner Orientation for SD SAMC*
If you are logged into the HCA network, you will automatically be signed in to Healthstream when you access the site above. If you are not logged into the HCA network, your username is your 3/4 ID and your password is the same one you use for the HCA network.
- Option 2 = Live Orientation held monthly, 3rd Wednesday each month. 8 am to 11:30 am.
You must RSVP to Beth.English @stdavids.com. See attached agenda.

If you have not worked a shift at an HCA facility in the Central/West Texas division and you would like to choose the online orientation, **please wait until after you have completed your EHR computer training at one of the facilities before you attempt the online orientation. You will receive a separate email with the information you need to set up an EHR computer training. The SAMC orientation does not replace the EHR training.

If you are an established provider and you choose Option 1, please log in to HealthStream. The course may already be assigned to you (see To Do); If not already assigned, you can search for the course in the catalog and then enroll.

Below are screen shots of the course. It is not as lengthy or cumbersome as it looks. It is basically a resource of helpful facility specific information. You can open and review as needed. **The attestation at the end is the only required piece needed to complete the course.**

If you have any questions, please contact Beth English, Director of Medical Staff Services, at 512-816-7102.
